

Application Serial No. 10/009,998
Reply to Office Action of November 2, 2005

PATENT
Docket: CU-2782

REMARKS

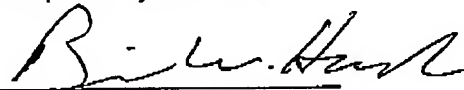

In the Office Action, dated November 2, 2005, the Examiner states that Claims 1-12 are pending, Claims 1-3 and 5-12 are rejected and Claim 4 is objected to. By the present Amendment, Applicant amends the claims.

The present Office Action appears to be a copy of the previous Office Action. The Examiner does not acknowledge on the Office Action Summary that a new Claim 12 was previously added, and the objections to the drawings and claims are repeated, although those objections were overcome by the previous amendment filed on August 11, 2005.

In the Office Action, the rejections to Claims 1-3 and 5-12 have been maintained. Claim 4 is indicated as containing allowable subject matter. The Applicant by this amendment has incorporated the limitations of Claim 4 into independent Claim 1. Thus, the rejections to the claims are considered overcome.

In light of the foregoing response, all the outstanding objections and rejections are considered overcome. Applicant respectfully submits that this application should now be in condition for allowance and respectfully requests favorable consideration.

Respectfully submitted,

Attorney for Applicant
